

# ubuntu

linux for human beings

## VERSION 9.04

Jaunty Jackalope  
Desktop and Server

### What is Ubuntu?

Ubuntu is a community developed operating system that is perfect for laptops, desktops and servers. Whether you use it at home, at school or at work Ubuntu contains all the applications you'll ever need, from word processing and email applications, to web server software and programming tools.

Ubuntu is and always will be **free of charge**. You do not pay any licensing fees. You can download, use and share Ubuntu with your friends, family, school or business for absolutely nothing.

FOR MORE INFORMATION PLEASE VISIT

<http://www.ubuntu.com>

Everything you need on one CD, which provides a complete working environment. Additional software is available on-line.

The graphical installer enables you to get up and running quickly and easily. A standard installation should take less than 25 minutes.

Once installed your system is immediately ready-to-use. On the desktop you have a full set of productivity, internet, update-notification. Drawing, graphics and games.

For local help you can join the Devon & Cornwall Linux user group e-mail discussion list – details at : <http://www.dcglug.org.uk>

or connect to our IRC chat room at [irc.flashtek-uk.com](http://irc.flashtek-uk.com) #dclug using your favorite irc client.
